Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Examiner agreed to review Goodnow in comparison to the Specification. Goodnow analyzes 'a plurality of code segments', comprising one or more lines of program instructions (Abstract). The instant application, Specification, page 11, discloses "An interval...a selection of continuous instructions in program execution order...may be thought of as a slice of time...may be, for example, a time interval, an instruction interval, and/or a metric-based interval. Examiner considers Goodnow's 'code segment' to read on 'an instruction interval'. Applicant may amend claims.
